

**LRP-H**  
**Paper Handle making Machine (Hot melt adhesive type)**  
 纸手挽机(热胶型)

**简介:**

本机专为纸袋拎手而研制的新一代手挽机。该机是将纸绳夹在两层牛皮纸中间，经过涂胶、压合、再自动分切成单个手挽。是手提纸袋机生产线的理想配套产品。

**Introduction:**

machine was developed specifically for the new generation of paper Handle Machine. This machine is sandwiched between two layers of kraft paper rope middle, after gluing, lamination, and then automatically cut into a single handle. Paper bag machine is the ideal complementary product lines.

**特点：**

1. 使用热熔胶不易脱落。
2. 操作方便，速度快

**Features:**

1. use Hot-melt glue not falling.
2. easy to operate, fast.
